DETAILED ACTION

1. Applicants' amendments, submitted on 16 December 2004, overcome the objections to the claim and the abstract. Examiner hereby withdrawn the objections that were given in the Office Action dated 17 September 2004.

Allowable Subject Matter

2. Claims 1-5 and 7-12 are allowed.

The following is an examiner's statement of reasons for allowance:

Prior art of record fails to teach a combination of elements including an extent mapping mechanism to perform extent mapping on files to be backed up in a given backup session before said split mechanism splits said mirror for the same given backup session and an extent map check and update mechanism to check, after said split mechanism splits said mirror for the same given backup session, whether any files have been updated in a manner so as to require additional or revised extent map information as recited in independent claim 1.

These features, together with the other limitations of the independent claims are novel and non-obvious over the prior art of record. The dependent claims 2-5 and 7-12

Art Unit: 2167

being definite, enabled by the specification, and further limiting to the independent claim, are also allowable.
